Office Action Summary	Application No. 10/791,270	Applicant(s) NOMURA ET AL.	
	Examiner HASAN S. AHMED	Art Unit 1618	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

In view of the applicant initiated interview of 13 February 2008 the two groups designated in the original restriction requirement (2 May 2007) have been rejoined (see interview summary, 19 February 2008). The following claims directed to patentably distinct species are based on the rejoinder:

Species I – penem antibiotic fill:

- a. penem antibiotic with enteric coating (claim 9); or
- b. penem antibiotic with gastric coating (claim 10); or
- c. penem antibiotic with functional coating and penem antibiotic without functional coating in a range of 3:7 to 7:3 by weight (claim 12); or
- d. penem antibiotic with an enteric coating and penem antibiotic with a gastric coating in a range of 3:7 to 7:3 by weight (claim 14); or
- e. penem antibiotic with functional coating and penem antibiotic without functional coating in a range of 5:5 to 7:3 by weight (claim 21); or
- f. penem antibiotic with an enteric coating and penem antibiotic with a gastric coating in a range of 5:5 to 7:3 by weight (claim 23).

Species II – penem antibiotic species:

- a. the species of claim 16; or
- b. the species of claim 17.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Because the above restriction/election is complex, a telephone call to applicants to request an oral election was not made. See MPEP 812.01.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should Applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
